

LS telcom AG is an international company with approximately 235 employees worldwide. Our Headquarter is located in Lichtenau (Baden, Germany). We are the leading provider of consulting services and system solutions regarding the efficient use of radio frequency spectrums in all radio services. We have a uniquely comprehensive competence that enables us to serve the complete market segment of wireless communications with our product portfolio.

Broadcast RF Engineer (m/f/d)

Main tasks

- You will provide engineering and product support to an established worldwide customer base of regulatory authorities and broadcast operators for our RF broadcast engineering tools
- You will assist and support our customers with their challenges and questions during daily operation of our software in the field of broadcast network design and national and international frequency coordination
- You will develop macro procedures to help customers with the automation of processes and frequent tasks
- You will provide technical consultancy, software demos and training to customers (worldwide)
- You will identify and describe new customer use cases and cooperate closely with the product owner during implementation
- You will support technical regression testing and manage the roll-out of new software releases

Qualification Profile

- University degree (or comparable qualification) in Electrical- / Telecommunication Engineering or similar
- Knowledge and experience in RF broadcast network technology, design and international coordination – in DVB, DAB and FM
- Knowledge in LF/MF or HF would be beneficial, but no condition
- Basic knowledge in software programming – general IT knowledge would be useful
- Interest and ability to explain and communicate complex technical issues
- Very good skills in English and German, skills in other languages are welcome

What we offer you

- Diversified, demanding and interesting field of activity
- Flexible working hours for the compatibility of work and private life
- Collegial and highly professional team in a modern, international working environment
- Career opportunities here in Germany as well as worldwide

We are looking forward to your application!
