

LS telcom AG is the world's leading provider of technologies and consulting services for the efficient use of the radio spectrum in all radio services. In an increasingly digital networked world, we ensure that all spectrum users benefit maximally from radio services. We optimize spectrum management and use in all markets and market segments and enable new business models in vertical markets based on the Internet of Things (IoT).

Project Engineer RF / Computational Engineer (m/f/d)

Main tasks

- You define and design applicable calculation scenarios for the whole frequency range of radio services (Mobile Communications, Broadcast, Microwave Fixed Links, Satellite, etc.)
- You develop solutions in close cooperation with the customer, as well as with the various stakeholders within LS telcom
- You establish automation macros for the applicable calculation scenarios based on the LS software tool chain
- You provide local technical consultancy and training for customers (worldwide)
- You support the customers during the integration and commissioning process
- You are responsible for the further development of methodologies and concepts of the frequency assignment/wireless compatibility analysis in cooperation with the involved departments

Qualification Profile

- You have a university degree (or comparable qualification) in Electrical- / Telecommunication engineering or similar
- You have solid basic knowledge in software programming - general IT knowledge is an advantage
- You have very good English skills and a good level of German
- You are willing to assume responsibility and to act autonomously
- You have interest and ability to explain and communicate complex technical issues
- You are enthusiastic about working in intercultural / international teams

What we offer you

- Varied, demanding and interesting field of activity
- Flexible working hours to reconcile work and private life
- Collegial and highly professional team in a modern, international working environment
- Career opportunities here in Germany or worldwide

We are looking forward to your application!
